

Dear Mark and the Two Oceans Team

I would like to thank you for building the **Queen of the Carnival**, clearly the best Day Charter Catamaran in the Caribbean. There is no question the **Queen of the Carnival** is top in its class. The beautiful smooth finishings and smooth sleek style of this double deck catamaran defiantly gives our guests is the feel of a luxury we were requiring. You completed this vessel for us in record breaking time - 11 months from order to collection - and your team's service and after sales service are second to none - complete assistance right through the build and after service.

I will recommend you with complete confidence and will be back in the future to purchase another day charter catamaran as our demand is ever- increasing.

Best Wishes

Peter Byrne
